Radial profile at mid-height, M50
T minus surface T at mid-height (K)
radius (mm)
Along the axis, M50
axis T minus mid-height axis T (K)
height (mm), base to cap
radial model
(a) side cooled
(b) side and ends
(c) as (b) + tabs
(d) as (b), h = 25
Units, M50
unit T above ambient (K)
unit, core to surface
Units, 4680
unit, core to surface
